HEX ADJUST HINGES

Always right on the mark!

CORNER HINGE HEX ADJUST

U-HINGE HEX ADJUST

- No pins to lose, no small rods to adjust tension
- Patent pending "hex adjust" operation allows for easy tension control
- Uses Standard 3/8" hex/Allen wrench to adjust
Wrench is included with each hardware set
- 300 series Stainless Steel
- Works as easily when installed in either direction arrow indicates direction to increase gate tension
- Available in Black or White
- Works without tension as well (non-self-closing mode)
- Wrench allows customer to adjust tension, reducing call backs!
