Gorilla® Fence is Gorilla® Tuf!

This unique fencing system manufactured by Homeland Vinyl Products uses a new H-post design and is engineered for installation without routing. Gorilla Fence profiles can be installed in concrete or sleeved over 1-7/8" galvanized pipe. Gorilla Fence is backed by Homeland's limited lifetime warranty and is protected by our ACCU-Shield® formulation. You can feel confident you are getting a proven product to stand up against the elements.

Gorilla® Fence is truly...

Tough Enough To Take It!

Strong & Durable

Not all Vinyl Is Created Equal!

Homeland® manufactures the toughest PVC profiles the with most advanced UV protection under the sun, our ACCU-Shield® formulation.

ACCU-Shield is our protective outer layer engineered to significantly reduce oxidation and the damaging effects of the sun's ultraviolet rays. Even in harsh climates, ACCU-Shield protects the color and sheen of our products for a longer period of time. Simply put, there is no better protection under the sun than ACCU-Shield.

Don't forget accessories...

Homeland® and Waymark® work hand in hand to design our products to work as a **system**, from our precision fit designs to our color matching. Homeland and Waymark are "the perfect match" !

Fence

& Rail

Fencing: Post Caps, Solar Lighting, Rotating Pickets, Fashion Pickets, Brackets and more.

GORILLA® FENCE

Tough enough to take it.

The key to Gorilla® Fence is the evolutionary next step of the Tuf-Fence® H-Post design.

- The H-Posts will accept 1-3/4" Rail
- add the 1-1/2" Post Insert into the H-Post and it can now use 1-1/2" rail
- Add the 1-3/4" U-Channel to the shallow groove and create a corner post.
- Add the 1-1/2" Post Insert to fill the deep groove of a corner post or end post.
- Add a 1-3/4" x 5-1/2" Nexus® Midrail to create a beautiful design or picket top or lattice accent.
- The H-post design allows the installer to deal with terrain and layout changes without having to order additional or replacement posts that other routed post fence systems require.
- Will not rot, split, splinter or decay
- UV Protected - Homeland's ACCU-Shield® formulation protects your PVC against harsh ultraviolet rays
- For maximum strength, we recommend metal stiffeners in the top and bottom rail.
- Quality Assurance - Homeland Vinyl Products has a rigorous Quality Control program.
