Homeland® manufactures the toughest PVC profiles with the most advanced UV protection under the sun, our ACCU-Shield® formulation.

ACCU-Shield is our protective outer layer engineered to significantly reduce oxidation and the damaging effects of the sun's ultraviolet rays. Even in harsh climates, ACCU-Shield protects the color and sheen of our products for a longer period of time. Simply put, there is no better protection under the sun than ACCU-Shield.

Homeland's Homewood colors are variegated with irregular patterns and streaks. A randomized streaking process makes every piece different. Although each named Homewood color begins with a controlled base color, due to the randomness of the streakers, even the background color appearance will vary throughout and between runs. Please be aware of this before ordering and installing Homewood. Information and Best Practices for purchasing and installing Homewood colors can be found at:
